

CONGRATULATIONS ON YOUR NEW POSITION!

It is my pleasure to announce the selection of Callum Lapper as Service Development Planner reporting directly to Jessica Cignarella, Manager, Transit Service Planning. Callum assumed his new position on Monday, July 15, 2024.

Callum will be responsible for supporting the scheduling and service planning functions of Long Beach Transit (LBT). He will ensure transit services are provided in a safe, efficient, and cost-effective manner. Callum's responsibilities include developing fixed-route schedules, operator runs, rosters, and bid processes. He will provide route and system-level planning support, service change evaluations, and short- and long-range transit planning.

Callum joined LBT in March 2024 as a Service Planning Intern. In that role, he provided GIS technical support, conducted reviews of development projects to identify any potential impacts to service, and assisted with an analysis of bus capacity needs at the Transit Gallery. He brings experience in geospatial techniques and transit data analytics, including a focus on vanpool operations, transit hub needs, and mobility and accessibility at college campuses.

Please join the President and CEO, as well as the Executive Leadership Team, in congratulating Callum on his promotion.
