

CONGRATULATIONS ON YOUR NEW POSITION!

It is my pleasure to announce the promotion of Emily Peng as GIS/ITS Transit Planner reporting directly to Jessica Cignarella, Manager, Service Planning. Emily assumed her new position on Monday, July 1, 2024.

Emily will provide technical assistance in service planning and ArcGIS system data management, prepare various project reports, and study findings on special assignments. She will provide Long Beach Transit (LBT) with a comprehensive understanding of mobility planning practices with bus operation and ridership analysis.

Emily started working for LBT in December 2023 as a Service Planning Intern. In that role, she assisted in the preparation of mapping and data summaries of transit operations. Emily has over two years of maintaining GIS data, technical support, and reporting, in addition to mapping, and data analysis experience.

Please join the President and CEO, as well as the Executive Leadership Team, in congratulating Emily on her promotion.

A blue ink handwritten signature.
